Tandem Trailer

Note: Hire or loan of the Trailer is done separately via the Boroondara Scout Website.

1. The trailer is an 8 x 5 Tandem dual axle trailer with cage.
2. Tare weight 840kg, fully loaded approx.1780 kg
3. Electrical connector 7 pin flat.
4. Standard tow ball 50mm
5. The Trailer is fitted with electric brakes & mechanical brake.
6. An electric brake module is fitted to the trailer and is activated by turning on car headlights (not parkers).
7. Tyres are light weight truck tyres (recommended tyre pressure 40 PSI) with 21mm nuts (Ford type) and a spare wheel & wheel brace fitted at front of trailer.
8. There are barndoors fitted at each end of the trailer and fold down door rear of the trailer, the top canopy doors fold down and all doors can be removed.
9. 2x Drop down stabilizers are fitted at back and crank handle is fitted on front of trailer.
10. The trailer is fitted with 2 x 9kg gas bottles at the front of the trailer. Figure 2
11. The trailer has 2 x drop downsides and a top frame to hold tables, ladder tools etc. Figure 3
12. The trailer has a heavy-duty Torno cover, with zip access at each corner, the zips should be secured with cords when transporting. Figure 1
13. The Torno cover sides can be rolled up and secured with clips provided.

Note: Suggest using 3x3 Gazebo either side of trailer when catering and cover with a tarp if rain is expected. See figure 3

Maintenance of Signage on Cover

Refer to labels regarding Do's & Don'ts on Trailer cover
